

OUR PROCESS

Initial Consultation

- We meet with you at your home or virtually to discuss your goals, style, and budget.
- Assess your space and gather key details to provide accurate guidance.
- Outline options and ideas tailored to your vision.

Design & Planning

- Create personalized design plans, including layouts, finishes, and materials.
- Provide 3D renderings or visual references so you can see the space before construction.
- Coordinate permits, engineering, and approvals if required.

Proposal & Approval

- Present a detailed estimate with pricing ranges, timelines, and project scope.
- Discuss any options or upgrades you wish to include.
- Once approved, schedule your project and confirm materials.

Construction & Management

- Our skilled team begins the remodeling process, following the approved plan.
- Project manager oversees every aspect, including subcontractors, scheduling, and quality control.
- Maintain clear communication with you throughout, addressing questions and updates.

Walk Through & Satisfaction

- Final walk-through with you to ensure everything meets your expectations.
- Provide guidance on care, maintenance, and warranties.
- Ensure you are completely satisfied with your new space.
